FOREWORD

It is indeed a matter of pride and great satisfaction for us in NCRB to present the 68th edition of our annual report "Crime in India-2020" covering the crime statistics for the year 2020. Since its introduction in the year 1953, the report has made a formidable reputation for itself among various stakeholders including policy makers, police officials and researchers both nationally and internationally.

Crime is not only a malafide occurrence which violates the law of state, but also a negative externality with enormous social and economic costs. Rapid changes in how people interact with each other especially on global scale enhanced by the internet, create a social dynamic which criminals can easily take advantage of in extending their reach. The statistics presented in the report will help in data based analysis and understanding the complex phenomenon of crime.

The general objective of the report is to present the statistics on crime that can be used as a tool in helping law enforcement officials in its controlling. Data based policing can help focus on a specific area and allow police resources to be used more effectively.

The Bureau understands that good planning is indispensable to the development and implementation of effective programs for improving criminal justice system and reducing crime. Therefore, constant efforts have been made to incorporate the changing patterns and present data in a form that will help the policy makers and planners in the face of accelerated social change and concomitant increase in crime.

The Bureau is unequivocally thankful to the heads of the States & UTs Police, Directors of SCRBx/CIDs and staff for their support and assistance in furnishing data despite the difficult situation of COVID-19 prevalent in the country.

I congratulate the officers and staff of Statistical Branch in bringing out the report in the stipulated time frame and appreciate the work done by them in collecting and compiling data for the report. The Bureau is bereaved by the death of Shri R. Dhanaraj, Technical Officer of the Statistical Branch, who succumbed to COVID-19 in the midst of collection of data. I take this opportunity to express my deep gratitude towards his huge contribution.

Like the previous years, Crime in India-2020 is freely accessible in digital format on our website https://ncrb.gov.in.

I am hopeful that the report will be useful to all national and international stakeholders. Suggestions or feedback would be greatly appreciated to further improve the quality and reliability of data presented in the report.

Disclaimer

1. The information published in this report has been obtained from States/UTs Police and CAPFs/CPOs. National Crime Records Bureau has only compiled and collated the data and presented it in the form of this report. As data is being furnished by States/UTs/ CAPFs/CPOs, NCRB is not responsible for authenticity of the information. However, any discrepancy observed in this report may be brought to the notice of the Bureau.

Limitations

1. Since the publication caters to the 'Principal Offence Rule' for classification of crime, the actual count of each crime head may be under reported. This is because among many offences registered in a single FIR case, only most heinous crime (maximum punishment) will be considered as counting unit. Hence, there is likelihood of some IPC/SLL cases getting under reported as they are hidden under major IPC crimes. For example, Murder with Rape is accounted as Murder; Dowry Prohibition Act when applied along with Dowry Death (304B of IPC) will be counted as Dowry Death only.
2. The Socio-economic causative factors or reasons of crimes are not being captured by the Bureau. Only police recorded crime cases are being captured for this publication.
3. Crime Rates (Crime per lakh population) of States/UTs have been arrived at using the Mid-Year Projected Population of respective States/UTs of 2020 based on 2011 census (Report of the Technical Group on Population Projections, July, 2020, National Commission on Population, Ministry of Health & Family Welfare). However, this is not available in respect of metropolitan cities. Crime Rates for Metropolitan cities have been calculated using Actual Population Census 2011. Hence, Crime Rates of States and Metropolitan cities are not comparable.
4. 'Crime Rate' is not calculated for City-wise Crimes under 'Children, SCs/STs & Senior Citizens' due to non-availability of Population figures of these groups in the cities.
5. Data from West Bengal for 2019 had not been received in time for the publication of Crime in India-2019 and therefore WB data for 2018 had instead been used in that publication for arriving at National figures/trends. Now, WB data for 2019 which was received late last year, has been factored in this publication wherever references to that data appear.
6. Due to non-receipt of validated data for 'Chapter 8C-Prevention of Corruption Act' from Anti-Corruption Bureau of Kerala and Chhattisgarh for the year 2019 and 2020, data furnished for the year 2018 has been used in the total to see the National trend.

Methodology for Data Collection & Publication

A) Data Collection and Compilation Process

Crime in India – 2020 deals with the crime data which refers to the calendar year (1st January to 31st December of 2020). The data collection process including clarifications from the States/UTs/Central Agencies started in Jan, 2020 and continued till July, 2021.

a) State/UT Police:

i. The annual State/UT data for "Crime in India" is furnished by the 36 States/UTs in the NCRB prescribed proformae through a software application developed by NCRB.

ii. Similar data is also furnished for 53 Metropolitan Cities by respective SCRBs /CIDs (i.e. Metropolitan Cities which have the population of 1 million (10 lakh) or more as per Population Census, 2011). However, data pertaining to only 19 Metropolitan Cities which have crossed the population of 2 million (20 lakhs) is being published in hard copy. The data for remaining 34 Metropolitan Cities would, however, be available on NCRB Website.

iii. Delhi UT comprises of both Delhi City and rural part of Delhi.

iv. The data is entered by State/UT Police at Police Station/District level.

v. A training is conducted every year for the functional officials (Police constables, HCs, ASIs, SIs, etc. from all States/UTs) to explain the various issues concerning entry of data in input tables.

vi. The consolidation of District/State level data is done by State Police Agencies (SCRB/ CID).

vii. First level data validation is done at the Police Station/District level during the data capturing process itself and Second level data validation is done at the state level at the time of consolidation of District data through the NCRB application.

viii. Data is scrutinized at NCRB for discrepancy / inconsistency. The same, if any, are communicated to the respective State/UT for verification and rectification.

ix. Amendments/Rectifications, if any, in the data are incorporated in the database by NCRB.

b) Central Armed Police Forces/Central Police Organisations:

Data of Trafficking and Seizures by Border Security Force, Central Industrial Security Force, Central Reserve Police Force, Indo-Tibetan Border Police and Sashastra Seema Bal have been published under Chapter 20C.

c) Compilation at NCRB:

i. After receiving final data from all States/UTs including Metropolitan Cities, All-India data is generated by NCRB.

ii. The National Level tables for the "Crime in India" publication are generated through the application and cross checked for discrepancy, if any.

iii. Calculations used in columns, if any, are mentioned at the bottom of the respective table.

B) Methodology Adopted for the Present Publication (2020)

a) Principal Offence Rule:

As per the International Standard, the Bureau follows 'Principal Offence Rule' for counting of crime. In other words Principal Offence Rule refers to the system of recording each criminal incident as one crime. If many offences are registered in a single FIR case, only the most heinous crime i.e. the one that attracts maximum punishment will be considered as counting unit.

b) Population

Sl.	Segment	Source	Year of Population
1.	**IPC & SLL**	Report of the Technical Group on Population Projections, July, 2020, National Commission on Population, MoHFW	Estimated population of States/UTs on the basis of 2011 Census for 2020
2.	**Women**	Report of the Technical Group on Population Projections, July, 2020, National Commission on Population, MoHFW	Estimated population of States/UTs on the basis of 2011 Census for 2020
3.	**Children**	RGI	Actual Census 2011
4.	**Senior Citizen**	RGI	Actual Census 2011
5.	**Scheduled Castes**	RGI	Actual Census 2011
6.	**Scheduled Tribes**	RGI	Actual Census 2011
7.	**Metropolitan Cities**	RGI	Actual Census 2011

(Details of population for States / UTs and Metropolitan Cities are placed at Annexure – I.)

c) Crime Rate

In order to make the Statistical Analysis more meaningful, 'Crime Rate' has been used i.e. crime per lakh population of the respective segment of the population viz. Women, Children & SC/ST etc. Crime Rate = Number of Cases Reported / Population in Lakhs.

d) Terms used for registered FIRs

The terms in the report namely 'Cases Registered', 'Cases Reported', 'Number of Cases', 'Number of Crimes', 'Number of incidences', 'Incidences' are interchangeably used to indicate the number of registered FIRs.

C) Improvements over previous publication

a) Chargesheeting Rate, being a better indicator of police performance has been published alongside Crime Rate in the first table of every Chapter.

b) State/UT-wise data on number of District-level Anti-Human Trafficking Units has been included and published under Table 14.8 in Chapter-14 Human Trafficking.

c) Data on crimes under Transgender Persons (Protection of Rights) Act, 2019 has been included under Special & Local Laws.

CRIME STATISICS - A WORD OF CAUTION!

Crime is manifestation of myriad complex factors. The causes of criminal behavior lie in the social processes and structures. People commit crimes due to the process of socialization that does not develop strong sense of right or wrong and due to the emerging opportunities, the enlarging desires that act as strong motivation for taking to crime to fulfill these desires. The genesis of crime can be traced to interplay of various social, economic, demographic, local and institutional factors. The presumption that crime occurs because of the failures of police therefore displays a complete lack of understanding of the theories of criminal behavior.

Further, these social factors along with other latent and concomitant factors vary significantly across different regions, states and societies. The differences in procedures over large geographical regions and styles of functioning inherent between organizations also create wide variances. Hence, doing comparison among States/districts/regions/social groups etc. on the basis of these published data alone will be too simplistic and is best avoided.

Further, no weightage has been assigned to the gravity or nature of the crime. All crimes have thus been treated equal in counting the total crime for a State or City. More crime registered say, in a city is, therefore, not an indicator of its being comparatively unsafe than the city where total crime may be less.

Lastly, as crime increases with population, Crime per lakh population (*Crime Rate*) may be a better indicator to assess increase or decrease in crime. However, a word of caution here! The primary presumption that the upward swing in police data indicates an increase in crime and thus a reflection of the ineffectiveness of the police is fallacious. 'Rise in crime' and 'increase in registration of crime by police' are clearly two different things, a fact which is often confused. Thus an oft-repeated expectation from certain quarters that an effective police administration will be able to keep the crime figures low is misplaced. Increase in crime numbers in a State police data may in fact be on account of certain citizen centric police initiatives, like launching of e-FIR facility or women Helpdesks, etc. The increase or decrease in crime numbers, however, does call for a professional investigation of underlying factors jointly with local communities to suitably address the issues involved.

Chapter 1A

Summary

(States & UTs)

Certain States like Haryana, Uttar Pradesh, Delhi, etc. have provided the citizen friendly service of Online Registration of FIR under certain category of offences like 'Vehicle Theft' and 'Other Thefts'. As this may have increased the crime reporting under such heads in these States, they become statistically non-comparable with other States not having such online registration facility.

Chapter 1B

Summary

(Metropolitan Cities)

(19 Cities with more than 2 Million Population)

Certain States like Haryana, Uttar Pradesh, Delhi, etc. have provided the citizen friendly service of Online Registration of FIR under certain category of offences like 'Vehicle Theft' and 'Other Thefts'. As this may have increased the crime reporting under such heads in these States, they become statistically non-comparable with other States not having such online registration facility.
